

INTRODUCE A GIRL TO ENGINEERING DAY

SPONSORSHIP FORM

FEBRUARY 17, 2022

Dear Sponsor,

This year the Society of Women Engineers is teaming up with Sain Associates and McWane Center to host area middle school girls for "Introduce a Girl to Engineering Day" on February 17, 2020. The event will be held at McWane Center tentatively from 7:30am to 3:00pm. This event is promoted by Discover E as part of the E-Week Initiative.

We need your help to make this event an even bigger success. A tentative agenda for the event:

- Welcome
- IMAX Movie
- Lunch, Speech from Amy Templeton, McWane Demonstrations, & Hands-on Activities
- Station Rotation - Mingle with females in the engineering industry or college
Stations include: Site development, Transportation planning, Road design, Structural, Environmental, Geotechnical, and Electrical to name a few
- Photo Booth with Engineering Garb
- Closing

Your financial sponsorship will help defer the event expenses, as there is no plan to charge the girls or their schools for participating. If you have any questions please contact me.

Thank you so very much for considering a sponsorship in the amount of:

_____ \$250
_____ \$500
_____ Other \$_____

Sincerely,
Michelle Ballew
